

Academic engagement through active participation in instructional activities related to the course objectives is paramount to your success in this course and future courses. Through interaction with your instructor and classmates, you will explore the course material and be provided with the best opportunity for objective and competency mastery. To begin this class, review the course objectives for each Topic, and then answer the following questions as this will help guide your instructor for course instruction.

- 1. Which weekly objectives do you have prior knowledge of and to what extent?**
- 2. Which weekly objectives do you have no prior knowledge of?**
- 3. What course-related topics would you like to discuss with your instructor and classmates? What questions or concerns do you have about this course?**

Looking at the objectives I do not have prior knowledge of the weekly objectives. As we dive deeper into things, they might become recognizable. I think as of right now all objectives are new territory. I do not have any questions at this time. The only concern I have or worry I would say is that this class seems very heavy and a lot more responsibilities that I have to adjust to.
