

Edapt Overview of Innate (Non-Specific) Defenses quiz

Anatomy and Physiology III with Lab-Holsey > Unit 5

Classify each item as a first, second, or third line of defense.

	First	Second	Third
Lines of Defense	Mucosal membranes Skin	Eosinophils Macrophages Fever Inflammation	Cell-mediated immunity Antibodies Lymphocytes Humoral immunity

-
- Physical barriers include all, except_____.
 - mucous
 - sebum
 - unbroken skin
 - tears
 - T cells**
- Which type of white blood cell perform both phagocytic and non-phagocytic killing?
 - Natural killer cells
 - Basophils
 - Monocytes
 - Neutrophils**
 - Lymphocytes
- Which of the following is NOT a cardinal sign of inflammation?
 - Vomiting**
 - Heat
 - Swelling
 - Redness
 - Pain
- _____are secreted by cells infected with viruses, alerting neighboring cells and protecting them from becoming infected.
