

**Academic engagement through active participation in instructional activities related to the course objectives is paramount to your success in this course and future courses. Through interaction with your instructor and classmates, you will explore the course material and be provided with the best opportunity for objective and competency mastery. To begin this class, review the course objectives for each Topic, and then answer the following questions as this will help guide your instructor for course instruction.**

- 1. Which weekly objectives do you have prior knowledge of and to what extent?**
- 2. Which weekly objectives do you have no prior knowledge of?**
- 3. What course-related topics would you like to discuss with your instructor and classmates? What questions or concerns do you have about this course?**

There is not a whole lot I can tell you I know about the course weekly objectives other than them being consistent. This will be my fourth course at Grand Canyon University and I can tell you that from week ones weekly objective is that week in and week out there will be at least two discussion questions along with weekly assignments ranging anywhere from one to three assignments. As I go into my 4th course my course topics begin to get a little more intense. A course related topic I would like to discuss would be weeks seven 'writing a commentary'. It caught my attention because commentary would be interesting to learn how to do. Having commentary skills and the ability to draw a crowd to listen about what you have seen or read would be adding a very valuable skill to my arsenal. I am excited to learn more about myself and the information that this course has to offer.
