

## **Week 2 Discussion: Identifying and Applying Description**

- Read the following in your textbook: "My Creature from the Black Lagoon" by Stephen King (pp. 128-132). In complete sentences and with depth and detail, answer the following:
- Identify two specific sentences that you feel taught you the most about descriptive writing.
- Write each sentence with quotation marks around each and with an in-text citation after each quotation for proper citation to avoid plagiarism.
- Under each of the quoted sentences from King's essay, explain what the sentence taught you about descriptive writing. Also, explain exactly what you can do with this understanding by applying it to your essay.

### **The two descriptive sentences are:**

1. "They make their way up a swampy, narrow waterway and into a wide pond that seems an idyllic South American version of the Garden of Eden" (Russell, 2016, p.128)

From the statement above, it clearly painted an identifiable picture and a feel of the type of environment the casts of the movie existed. A mix of tropical and rich natural environment endowed with variety of species cohabiting and spooky, at the same time.
