

Module 4: MS-DRG Discussion (Graded)

The discussion question this week relates to the MS-DRG video recording describing the facility reimbursement system based upon diagnosis code selection. (NOTE: Do not answer the discussion until all MS-DRG assignments have been completed including the video lesson below. The discussion question cannot be properly answered to earn full points without completing the included video lesson.)

Directions:

1. Review the video embedded within this discussion. Using 3M software, follow the instructions to obtain the information required to answer this discussion question.
2. Take notes during this lesson, adding to the notes from the MS-DRG Real World assignment.
3. This week's discussion requires an assessment of the interactive lessons. There is a minimum sentence, grammar (spelling) and structure requirement for the discussion this week. A rubric will be used to grade the discussion, which is included for review. The discussion should not be entered until all MS-DRG lessons have been completed.

Please note: The initial post only is graded. A second post will not be graded and a 0 will be earned for the discussion. Please refer to the course Plagiarism policy posted in Announcements when the course started. Violations will be reported per the Student Handbook guidelines.

Grading of this discussion is 20 points and will follow the rubric outlined for the assignment. Please review the rubric to understand the requirements of the assignment for maximum points.
