

Week4 Discussion: Debriefing of Week 3 iHuman Cardiovascular Assessment (Graded)

Purpose

The purpose of this debriefing is to re-examine the experience completing the Week 3 iHuman Cardiovascular Assessment assignment while engaging in dialogue with faculty and peers. In the debriefings, students:

- Reflect on the simulation activity
- Share what went well and consider alternative actions
- Engage in meaningful dialogue with classmates
- Express opinions clearly and logically, in a professional manner

Course Outcomes

This debriefing enables the student to meet the following course outcomes:

CO 2: Differentiate between normal and abnormal health assessment findings. (PO 4)

CO 3: Describe physical, psychosocial, cultural, and spiritual influences on an individual's health status. (PO 1)

CO 4: Demonstrate effective communication skills during health assessment and documentation. (PO 3)

Due Date

- During the assigned week (Sunday the start of the assigned week through Sunday the end of the assigned week):
 - Posts in the discussion at least two times, and
 - Posts in the discussion on two different days

Points Possible: 50 points

Directions

Debriefing is an activity that involves thinking critically about your own experiences related to the virtual simulation you completed. In debriefings students:

- Demonstrate understanding of concepts for the week
- Engage in meaningful dialogue with classmates and/or instructor
- Express opinions clearly and logically, in a professional manner
- Use the rubric on this page as you compose your answers.
