

NR 361 Week 1 Discussion: AACN Essentials Self-Assessment

Download and open the AACN Essentials Self-Assessment (Links to an external site.) Links to an external site.

Complete the self-assessment of your current comfort levels and total your score. If you are willing, please share your results with your classmates in your discussion post. (Remember, this is the starting point for our course and the start of the knowledge we will learn over 8 weeks).

As you reflect on your score, identify areas where your knowledge could use improvement. Whether you are a new graduate or a seasoned nurse, it is important to keep in mind that all professional nurses are knowledge workers. What questions do you have as they relate to nursing informatics and the AACN essentials?
