Directions: Prior to completing this template, carefully review Week 3: Course Project Part 1 Check-In Directions paying attention to how to name the document and all rubric requirements.

Your Name: ....

1. **Choose a specific cultural/ethnic population that is in your area, clinical practice, or community but different than your own culture.**

The ethnic population I have chosen is the Hispanic population in New York City where

live. The Hispanic population makes up 29 percent of the total population, making it the

second largest ethnic population in New York City.

2. **Identify a health problem or need for health promotion from your chosen cultural population, based on the Leading Health Indicators (LHI) priorities from Healthy People. (See the HealthyPeople.gov Leading Health Indicators website link in the Assignment Guidelines for this assignment). This might include a specific age or gender. You will use the specific cultural focus to complete your assignment**

One of the objectives of Learning Health Indicators is to put focus on upstream measures

by identifying different risk factors as well as behaviors facing a specific population or
