1 Ticket to Class - Chapter 1,2,6,7

- Definition of health according to the World Health Organization does this support health prevention exactly how?

According to the World Health Organization health is a state of complete physical, mental, and social wellbeing. The definition of health according to World Health Organization does support health prevention by promoting not only health as a physical mean, but as mental and social as well.

- What is the role of community-based nursing in the health continuum of care?

Community based nursing allows medical professionals to address the needs of members of the community individually. Nurses can implement programs such as:

- Disease prevention
- Restorative care
- Health education

- What are the indicators of health based on Healthy People 2030?

- Homicides
- Exposure to unhealthy air
- Drug overdose deaths
- Household food insecurity and hunger
- Children, adolescents, and adults who use the oral health care system (2+ years)
- Consumption of calories from added sugars by persons aged 2 years and over (2+ years)

(Healthy People 2030 leading health indicators)

- Is this class a community? If yes, explain.

Yes, this classroom is a place where students gather to learn. They are united with things in common such as an interest of learning and spend a significant time together at the same place.
