

NR 447 Week 1 Introduction

Professor Bedner and Class,

Hello, my name is [REDACTED] and everyone calls me Suzi. I decided to return to school to complete my BSN ahead of my pursuit of a career as a CRNA. I chose Chamberlain College of Nursing as it comes highly recommended as a preparation for the Master's Program of Nurse Anesthetist. I received my AND in 1996 from Delaware Technical & Community College and currently live in South Florida. Most of my nursing career was spent in ER/Trauma. In 2008, I challenged the Paramedic State exam and became a Flight Nurse/Flight Medic with Helicopter Air Rescue and, subsequently, for the last 5 years with an International Fixed Wing Medi-Vac operation traveling all over the world bringing sick/injured Americans home. I've been divorced for 7 years and have no children, no husband, no boyfriend, no pets, not even a plant. Currently, I live in a studio apartment in Downtown Delray Beach, Florida and have a 10minute walk to the Beach. I have an identical twin that lives a few miles from me; my twin works as a Dental Hygienist. I use Yoga to keep me grounded and fit.
