

Week One Reflection

Write 1-2 paragraphs reflecting on your experience as you continue your journey to achieve your MSN and become a nurse practitioner and post to this discussion board. Then save the reflection as a Word Document for submission later in the course. In week 8, you will submit all reflections as a single document.

This reflection is worth 5 points and the final reflection document in week 8 is worth 15 points.

What were the most important concepts you learned in week 1? Why are these concepts important? How will they prepare you for your future role as a nurse practitioner? In what ways do you feel prepared for your new role? In what ways do you feel unprepared?
