

Preparing the Assignment

Follow these guidelines when completing each component of the assignment. Contact your course faculty if you have questions.

Some clients may present specific challenges to the interview and physical examination. Nurse practitioners must be able to identify behaviors that impede the assessment and consider strategies to provide care to these clients.

Review the assigned topics listed by the first letter of your first name. For example, if your first name begins with the letter G then your assigned topic is the approach to a flirtatious client.

The First Letter of Your First Name	Topic
A – D	Argumentative client
E – H	Flirtatious client
I – L	Talkative client
M – P	Client who displays racist or discriminatory behavior
Q – T	Adolescent client who is reluctant to answer questions
U – Z	Violent client

Complete the following requirements:

1. Application of Course Knowledge:
 - a. Create a sample scenario based on your assigned topic. Describe potential client behaviors consistent with the concern listed.
 - b. Discuss an appropriate and professional approach to address the behavior and communicate with the client.
 - c. Provide an example of how you would document the encounter.
2. Integration of Evidence: Provide support from a minimum of one scholarly in-text citation in addition to the textbook.

Answer:

Mr. Rodriguez, a 28-year-old male, comes into the office for a routine checkup. The NP begins to ask Mr. Rodriguez some back ground questions while he has some other plans. He is more interested in getting to know his nurse practitioner and begins to make flirty comments and give the NP flirty looks. The NP notices his gestures and comments but decides to continue
