

NR 534 Week 8 Discussion

Experience: *Post a summary of your final paper: Planning Change: Reduction in Workforce. The summary should include the highlights (include key points from each heading) of the paper and should be confined to two paragraphs.*

Reflection: *Reflect on your experience in researching the issue of reduction in workforce and what it was like to apply what you learned to the scenario. What did you wonder about as you made decisions on who would not be working soon? Were you able to reconcile internal conflict of values with the actions you had to take? What were your frustrations or obstacles? Are you confident in your decisions?*

Implications: *How does this experience and what you learned from your reflection on it inform your future actions in advanced practice in nursing leadership?*
