

### **NR 535 Week 3 Collaboration Cafe**

- Create a short case scenario involving a nurse educator who is teaching in a didactic environment as part of their academic or professional development role.
- Describe two instructional strategies used by the nurse educator to facilitate learning within the didactic environment, and why each of the strategies effectively support learning in the didactic environment.
- Identify at least one barrier to learning and explain the nurse educator's response to address the barrier/
- Describe how competency with didactic teaching – learning strategies will be important for your success as a nurse educator.
