

NR567 Week 5: Study Worksheet Endocrine

Purpose

The purpose of this activity is to provide students with the opportunity to develop a comprehensive foundation in acute and critical care pharmacotherapy. Completion of the Study Worksheet will be used to complete the Week 5 Quiz.

Course Outcomes

This assignment enables the student to meet the following course outcomes:

CO1: Select appropriate medications according to patient presentation and unique patient factors. (PO 1)

CO2: Analyze factors pertinent to making the most effective drug selection for a client with a specific diagnosis in the acute care setting. (POs 1, 2)

CO3: Analyze client indicators of therapeutic, ineffective, adverse responses and side effects to drug therapy. (PO 1)

CO4: Write appropriate prescriptions according to evidence-based practice guidelines. (PO 1)

CO5: Identify legal and ethical issues related to pharmacological management of the critically ill adult and older adult patient. (POs 1, 2)

CO6: Analyze whether pharmacologic therapy is appropriate for individual patients. (PO 1)

Due Date

The Study Worksheet and Week 5 Quiz should be completed by Sunday at 11:59 p.m. MT of Week 5.

Total Points Possible: 50

points Requirements

Download the Study Worksheet. Research and answer the questions below as you explore the Week 5 module and requirements. Enter your responses in the Week 5 Quiz by Sunday at 11:59 p.m. MT. Do not submit this form; complete the Quiz using the answers from the Study Worksheet.
