

NR 599 Week 8 Discussion: MidWeek Comprehension Questions

NI knowledge, skills, and competencies are so pervasive in the modern technology-rich healthcare environment it is difficult to imagine one without the other. This course provided foundational and introductory knowledge regarding informatics with an emphasis on developing an understanding of concepts of nursing informatics (NI) and becoming knowledgeable about the application of informatics in advanced practice. Reflect upon one NI competency relevant to APNs which you learned in this course. Provide a brief summary (100 words or less)
